A single standing order to encompass all licences is preferred as is a nominated Solidata Mortgage Tracker Co-ordinator from your company to liaise with Solidata.

The co-ordinator should over time be able to build up their knowledge about the operation of the system and directly handle a majority of the queries from your users.

Your subscription supports the ongoing development of Solidata Mortgage Tracker and includes at least one upgrade each year along with continued user telephone and online support.

Future development of the software is in your hands - every company is welcome to make suggestions on how the online program will evolve to cater for the changes occurring in the industry.

#### Example 1:

A company purchases licences for the main system and 5 additional user licences.  
£150 set up fee plus £94 + £61 = £155 total monthly cost for 6 licences.

The average monthly cost per licence is therefore £25.83 including VAT.

#### Example 2:

3 months later the same company needs an additional 4 licences for online users.  
£94 + £61 = £155 total monthly cost for 6 licences (Original order).  
£50 set up fee plus £50 additional monthly cost (Additional Order).

Combined Cost for 10 licences: £155 + £50 = £205 monthly

The average monthly cost per licence is therefore £20.50 including VAT.
